03Building & Industrial

04Leisure & Living

Handheld

Reliable Temperature

Easy to Use

Wide Application

Product Description

- + Infrared thermal imaging camera for hand-held devices such as smartphones
- + Infrared sensar made by Uelectronics' special technology
- + Non-contact measurement using long wave infrared with a wavelength of 8µm ~ 14µm
- + Patent application of high precision temperature algorithm
- + Imaging of invisible heat sources and numeric temperature calculation

Product Features

- + Resolution: 80 x 60 Pixels
- + FOV: 52.5 °x 40 ° (F/#=1).
- + Frame Rate: ~ Max 20 Hz.
- Personnel Mode:
 Measurement range: 34°C ~ 42°C, accuracy: ±0.5°C, at approx. 40cm
 Recommendation of using 20 °C ~ 26 °C environment.
- + General Mode: Measurement range: -10°C ~ 200°C, accuracy: ±3°C or ±5%, within 5m
- + Operating Temperature: -10°C ~ 60°C
- + Power Consumption: 250mW
- + Temperature Measuring : Area (2ea), Point (3ea)
- + Real Image(Smart Phone) & Thermal Image in parallel
- + Alarm, Monitoring and Forwarding function
- + Interface: USB C-Type OTG.
- + Platform: Android (iOS/Windows/Linux will be provided.)

Size & Weight

- + Product: 60mm(W) x 26mm(H) x 20mm(T) (not include USB-C) / 16g
- + Case: 82mm(W) x 47mm(H) x 28mm(T) / 39g
- + Total: 55g.

Application Software ("HeatCam")

+ You can download "HeatCam" application software from Google Playstore.
